*If you wish your legacy to be Index-Linked the words in italics should be included; otherwise they should be scored out.

The phrase Index-Linked means:

(i) The amount specified ('the Original Amount') as multiplied by the index figure in the Retail Prices Index for the month immediately before my death and then and then divided by the index figure for the month in which this Codicil is executed.

(ii) If the Retail Prices Index is no longer in existence at my death or the basis of its computation has been altered, my trustees shall compute the Index-Linked sum in accordance with such formula as seems in their absolute discretion to be fair and reasonable so as to enable the Original Amount to be increased in accordance with inflation.
